## ОПИСАНИЕ ШКАЛ ОЦЕНИВАНИЯ

Показатель оценки освоения ОПОП формируется на основе объединения текущего контроля и промежуточной аттестации обучающегося.

Показатель рейтинга по каждой дисциплине выражается в процентах, который показывает уровень подготовки студента.

Текущий контроль. Используется 100-балльная система оценивания. Оценка работы студента в течение семестра осуществляется преподавателем в соответствии с разработанной им системой оценки учебных достижений в процессе обучения по данной дисциплине.

В рабочих программах дисциплин и практик закреплены виды текущего контроля, планируемые результаты контрольных мероприятий и критерии оценки учебных достижений.

В течение семестра преподавателем проводится не менее 3-х контрольных мероприятий, по оценке деятельности студента. Если посещения занятий по дисциплине включены в рейтинг, то данный показатель составляет не более 20% от максимального количества баллов по дисциплине.

Промежуточная аттестация. Используется 5-балльная система оценивания. Оценка работы студента по окончании дисциплины (части дисциплины) осуществляется преподавателем в соответствии с разработанной им системой оценки достижений студента в процессе обучения по данной дисциплине. Промежуточная аттестация также проводится по окончании формирования компетенций.

Порядок перевода рейтинга, предусмотренных системой оценивания, по дисциплине, в пятибалльную систему.

Высокий уровень – 100% - 70% - отлично, хорошо.

Средний уровень – 69% - 50% - удовлетворительно.

Показатель оценки	По 5-балльной системе	Характеристика показателя
100% - 85%	отлично	обладают теоретическими знаниями в полном объеме, понимают, самостоятельно умеют применять, исследовать, идентифицировать, анализировать, систематизировать, распределять по категориям, рассчитать показатели, классифицировать, разрабатывать модели, алгоритмизировать, управлять, организовать, планировать процессы исследования, осуществлять оценку результатов на высоком уровне
84% - 70%	хорошо	обладают теоретическими знаниями в полном объеме, понимают, самостоятельно умеют применять, исследовать, идентифицировать, анализировать, систематизировать, распределять по категориям, рассчитать показатели, классифицировать, разрабатывать модели, алгоритмизировать, управлять, организовать, планировать процессы исследования, осуществлять оценку результатов.  Могут быть допущены недочеты, исправленные студентом самостоятельно в процессе работы (ответа и т.д.)
69% - 50%	удовлетворительно	обладают общими теоретическими знаниями, умеют применять, исследовать, идентифицировать, анализировать, систематизировать, распределять по категориям, рассчитать показатели, классифицировать, разрабатывать модели, алгоритмизировать, управлять, организовать, планировать процессы исследования, осуществлять оценку результатов на среднем уровне. Допускаются ошибки, которые студент затрудняется исправить самостоятельно.
49 % и менее	неудовлетворительно	обладают не полным объемом общих теоретическими знаниями, не умеют самостоятельно применять, исследовать, идентифицировать, анализировать, систематизировать, распределять по категориям, рассчитать показатели, классифицировать, разрабатывать модели, алгоритмизировать, управлять, организовать, планировать процессы исследования, осуществлять оценку результатов. Не сформированы умения и навыки для решения профессиональных задач
100% - 50%	зачтено	характеристика показателя соответствует «отлично», «хорошо», «удовлетворительно»
49 % и менее	не зачтено	характеристика показателя соответствует «неудовлетворительно»

Реализация учебной дисциплины осуществляется с использованием материально-технической базы УрГЭУ, обеспечивающей проведение всех видов учебных занятий и научно-исследовательской и самостоятельной работы обучающихся:

Специальные помещения представляют собой учебные аудитории для проведения всех видов занятий, групповых и индивидуальных консультаций, текущего контроля и промежуточной аттестации.

Помещения для самостоятельной работы обучающихся оснащены компьютерной техникой с возможностью подключения к сети "Интернет" и обеспечением доступа в электронную информационно-образовательную среду УрГЭУ.

Все помещения укомплектованы специализированной мебелью и оснащены мультимедийным оборудованием спецоборудованием (информационно-телекоммуникационным, иным компьютерным), доступом к информационно-поисковым, справочно-правовым системам, электронным библиотечным системам, базам данных действующего законодательства, иным информационным ресурсам служащими для представления учебной информации большой аудитории.

Для проведения занятий лекционного типа презентации и другие учебно-наглядные пособия, обеспечивающие тематические иллюстрации.

### 7.3.2. Практические задания по дисциплине для самостоятельной подготовки к зачету с оценкой/экзамену

#### Примерные практические задания к зачету

##### 1 семестр

Задание 1. Чтение и письменный перевод оригинального текста. (УК-4)

Пример текста

Classes, seminars, and workshops might take up the majority of your day, but how you schedule your own time can make all the difference. While much of the advice about time management for students centers around creating a to-do list, it's more important to master your schedule. Having a daily schedule template in place puts you in control. It will help you stay organized, focused on what matters most, and even help you overcome procrastination.

The method of choice for many of the world's most successful people is called time blocking. Simply put, time blocking is when you create a template for how you want to spend every minute of your day.

This might sound overwhelming. However, it's more of a skeleton rather than a strict set of rules. Here are a few tips to get you started:

Step 1: Create "bookends" for each day

To maximize your time, you need to be purposeful with how you start and end each day. Think about your morning and evening routines and then "block" in time for your most important tasks. For example, you can have a 1-hour writing block each morning.

Step 2: Set aside time for your most important projects

Next, you'll want to set aside time for your most important projects. This might mean research or writing or something completely different. The key here is that you're purposeful about what you're doing and when it's going to happen.

Задание 1. Чтение и письменный перевод оригинального текста. (УК-4)

Пример текста

There are many reasons why online programs have become a popular form of distance learning in higher education today. The online environment offers unprecedented opportunities for people who would otherwise have limited access to education, as well as a new paradigm for educators in which dynamic

courses of the highest quality can be developed. Here is a list of some of the major benefits of online programs:

Anywhere...

The main advantage of asynchronous online learning is that it allows students to participate in high quality learning situations when distance and schedule make on-ground learning difficult-to-impossible. Students can participate in classes from anywhere in the world, provided they have a computer and Internet connection. In addition, the online format allows physically challenged students (and teachers) more freedom to participate in class. Participants access the Virtual Classroom through their computers instead of having to "go to class" physically.

Anytime, Any Pace...

The Virtual Classroom is accessible 24 hours a day, seven days a week. Time efficiency is another strength brought by the online learning format. Asynchronous communication through online conferencing programs allows the professional juggling work, family, and study schedules to participate in class discussions. There is no question about doing the work; just do it at the times that are more convenient. Students can access their courses at any time of day or night.

**Задание 1. Чтение и письменный перевод оригинального текста. (УК-4)**

**Пример текста**

There are a few things you need to do to get the most out of your CV and show prospective employers why you are the only person for the job. ‘CV’ is short for ‘Curriculum Vitae’: a Latin phrase meaning literally, ‘course of life’; a brief account of your education, qualifications, and previous employment. It is how you present yourself to the outside world, the world of work. It is a form of personal marketing so make sure when you write your CV that it shows you in the best light possible. Remember, that writing a CV is often just one part of the application process as a cover letter and completed application form may also be required. The format of a CV is flexible, and there are many different styles used. You need to tailor the content of your CV to the job in question. And, there are elements of it that most employers would expect to see applicant’s name, professional title and contact details at the very top of the CV. Don’t forget to provide email address and contact number(s).

## Work History and Experience

This section is where you can really shine. Set out your previous roles, experience, volunteering, placements or internships. You should list these in reverse chronological order, that is, most recent first. Your most recent role should be of the most importance to your prospective employer. Each item should detail employer details, your job role/title, your employment dates and no more than three to four lines of what you did in that role. Significant achievements should be identified. Active words, such as 'planned', 'built' and 'created' are useful in detailing things you have achieved.

### Задание 1. Чтение и письменный перевод оригинального текста. (УК-4)

#### Пример текста

Sometimes business can take you out of your home country. New opportunities can often be found overseas, and the ambitious entrepreneur shouldn't be afraid of growing beyond their own borders. However, conducting business with people from other cultures means being aware of how they do things differently.

While effective communication is one component to succeeding internationally, remaining adaptable to local protocol and etiquette is also essential. Seemingly small things, like how you accept a business card or what you order for lunch, can make or break a relationship.

Some international customs are more unusual than others. Here are 2 unique international business customs.  
South Korea

It is common for South Koreans to expect their guests to engage in karaoke. If you join your Korean colleagues for dinner, you might find yourself at a karaoke establishment, and you will be expected to sing. Don't worry if you're not a great singer, though. These karaoke establishments generally have private rooms, and it will just be your group that you have to perform in front of. Koreans will also often skip songs after the first verse and chorus to get through more karaoke during their allotted time.

France

If you don't speak French, that's OK, but you are expected to apologize for your lack of fluency before engaging in further conversation. If you don't have time to learn French before doing business there, learning a few phrases or greetings can serve as a show of good faith. Also, be prepared for lengthy meals in France. Lunch can last up to two hours long.
